

***CELEBRATING  
YEARS OF EXCELLENCE***

# ABOUT THE COMPANY

**AGATA IMPEX LTD. (AI)** – This is a technology company offering comprehensive solutions in the field of information and communication technologies.

For over 30 years, our company has been helping businesses and organizations in Uzbekistan operate reliably and without interruption.

As a reliable and responsible company, AGATA prioritizes the development of service-oriented areas, including IT consulting and system integration. To implement large-scale projects, we use the expertise and experience of our specialists, a deep understanding of customer needs, and cooperation with leading global manufacturers.

Over the years of our activity, more than 15 000 customers have entrusted us with their infrastructure tasks, and many continue to cooperate with us on a long-term basis.

**The company was founded in 1995**

**Over 30 years of professional experience**

**Over 15 000 customers**

**Hundreds of large-scale IT projects have been implemented**

# VALUE FOR THE CUSTOMER:

## Quick results:

ready-made comprehensive turnkey IT solutions.

## Minimizing IT risks and business downtime:

reducing risks with proven technologies and over 30 years of experience.

## Resource savings:

one company takes responsibility for the project  
“from design to technical support.”

## Access to global technologies and best practices:

customers gain access to the latest technologies  
and the world's best IT products.

## The customer's business is always in operation:

high-quality expertise, round-the-clock support and service.

# MISSION AND VALUES OF THE COMPANY

## MISSION:

We build long-term relationships with our clients based on trust.

We help businesses grow by ensuring stable IT infrastructure operation and implementing effective solutions.

## VALUES:

- **Partnership** — we build long-term relationships with our clients.
- **Innovation** — we implement the best global technologies.
- **Reliability** — we guarantee predictable results.
- **Responsibility** — we support the project at every stage.
- **Client-centric** — your tasks determine our solutions.
- **Efficiency** — we save our clients' resources and time.
- **Transparency** — openness and honesty in every project.
- **Trust** — the foundation of our relationships with clients.
- **Expertise** — confirmed by international certificates held by our specialists.
- **Support** — always there when your business needs us.

# PORTFOLIO OF MAJOR BRANDS

And many others

# MAIN PARTNERS

**50+** partner certificates

**250+** global brands in our portfolio

## KEY PARTNERS

# TURNKEY SOLUTIONS

## AND THE MAIN AREAS OF OUR ACTIVITIES

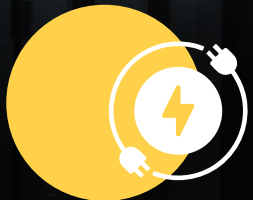

### Server solutions

- Virtualization;
- Cloud technologies;
- Clustering;
- Data storage systems;
- Data backup;
- Data processing center.

### Standardized solutions

- IP telephony;
- Video conferencing;
- Telepresence;
- Call centers.

### Uninterruptible power supply systems

- Uninterruptible power supplies;
- Diesel generator sets (DGS);
- Stabilizers, inverters, rectifiers;
- Power distribution systems;
- Renewable energy systems;
- Energy storage systems.

### Network solutions

- Distributed WAN networks;
- Wireless Wi-Fi networks;
- SD-WAN;
- Campus and local LAN networks;
- Industrial networks;
- VPN networks;
- Radio relay lines (RLS).

# TURNKEY SOLUTIONS

## AND THE MAIN AREAS OF OUR ACTIVITIES

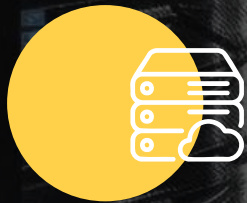

### Integration of artificial intelligence systems

- AI-based intelligent solutions in various sectors of the economy and industry;
- Identification and collection of data, analysis and visualization of data, as well as provision of actionable insights using AI-based applications;
- Automation of work processes using AI solutions.

### Information security

- Protection of server, network, and user infrastructure;
- Information security management systems;
- Antivirus protection;
- IPS/IDS • DLP;
- Network access control;
- Network perimeter security;
- Secure private networks (VPN);
- Vulnerability detection;
- Access control and management systems.

### Design and construction of data centers

- Precision cooling systems;
- Hot and cold air flow isolation systems;
- Raised floor and raised ceiling systems;
- Fire extinguishing and alarm systems;
- Ventilation and smoke extraction systems.

### VDI terminal solutions

- Thin Clients;
- Zero Clients;
- Software Clients.

# SERVICES

- Supply and implementation of RAD telecommunications equipment;
- Project to build network security and transport network.

## Ministry of Health of the Republic of Uzbekistan 2025

- Supply of equipment for regional dispatch centers (call centers) and emergency medical service field teams.

## **Administration of the Software and IT Technology Park 2024**

- Supply of hardware and software to improve IT infrastructure and ensure uninterrupted operation of information systems.

## **Ministry of Internal Affairs of the Republic of Uzbekistan 2020-2025**

- Supply and installation of H3C network equipment in district air traffic control centers in Tashkent.

## **State Security Service of the Republic of Uzbekistan 2020-2025**

- Supply of Dell personal computers, laptops, graphics monitors, and accessories;
- Supply of comprehensive high-power uninterruptible power supply systems.

## **National Library of the Republic of Uzbekistan 2020**

- Supply of comprehensive high-power uninterruptible power supply systems;
- Supply of wireless and wired communication systems in conjunction with server equipment.

# COMMERCIAL SECTOR

## **EPAM Uzbekistan** 2021 - 2022

- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **LARSEN & TOBRO LIMITED** 2025

- Supply of HP graphics stations, laptops, personal computers, and printers.

## **LC WAIKIKI RETAIL TASHKENT LLC**

2020 - 2023

- Supply of server and telecommunications equipment for retail outlets;
- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **ANGLESEY FOOD LLC**

**(Korzinka trademark)** 2021-2025

- Supply of personal uninterruptible power supplies;
- Supply of uninterruptible power supplies for distribution centers.

# FINANCIAL SECTOR

## **UZPROMSTROYBANK**

### **Joint-Stock Commercial Bank 2020**

- Expansion of server architecture based on HPE equipment;
- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **KDB Bank Uzbekistan JSC 2020 - 2023**

- Information security suite based on Fortinet solutions;
- Expansion of server architecture based on HPE hardware;
- Integration of an uninterruptible power supply system based on Eaton hardware.

## **Kishlok Kurilish Bank JSC 2023**

- Implementation of a corporate data transmission network modernization project;
- Modernization of the application server complex and creation of a unified virtualization infrastructure;
- Integration of an uninterruptible power supply system based on Eaton equipment.

## **UZPAYNET LLC 2023**

- Supply of equipment for the modernization of HPE turnkey data centers.

# FINANCIAL SECTOR

## **Capitalbank JSC** 2023 - 2025

- Supply and implementation of Cisco IP telephony for the Bank and its branches;
- Supply of Palo Alto firewalls complete with licenses; Implementation of the Onedentity IDM system.

## **Invest Finance Bank JSC** 2024

- Supply and setup of special wireless access zones based on HPE WiFi equipment;
- Integration of an uninterruptible power supply system based on APC equipment.

## **Microcreditbank JSC** 2024

- Modernization of the corporate data transmission network and creation of a unified HPE turnkey virtualization infrastructure.

## **AIKB "Ipak Yuli"** 2023

- Modernization of the server complex and creation of a unified virtualization infrastructure.

# INDUSTRIAL SECTOR

## **Lukoil Uzbekistan** 2020 - 2022

- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **JSC "Atomstroyexport" in the Republic of Uzbekistan** 2020

- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **Nestlé Uzbekistan** 2020 - 2025

- Supply of Lenovo computer equipment;
- Supply of HPE server equipment for production line automation;
- Supply and implementation of the advanced
- HPE Apollo data storage system.

## **KNAUF Uzbekistan** 2021 - 2024

- Project for the reconstruction and expansion of the plant's IT infrastructure;
- Supply of HPE server equipment for the automation of production lines;
- Integration of an uninterruptible power supply system based on Eaton equipment.

# INDUSTRIAL SECTOR

## **SAM ANTEP GILAM LLC 2022**

- Delivery and configuration of HPE server equipment for the deployment of the SAP HANA software and computing complex.

## **Coca-Cola Bottlers Uzbekistan 2023**

- Comprehensive supply of computer equipment and modernization of IT infrastructure;
- Supply of HP laptops, computers, and thin clients.

## **GRAND FARM TRADE LLC 2023**

- Delivery and configuration of HPE server equipment for the deployment of the SAP HANA software and computing complex.

## **Almalyk Mining and Metallurgical Plant JSC 2020**

- Supply of Cisco network equipment for upgrading production lines;
- Supply of high-speed wide-format printers.

# OPERATORS COMMUNICATIONS

## **COSCOM LLC TM UCELL** 2024 - 2025

- Supply and configuration of ARISTA equipment;
- Supply and implementation of a software and hardware complex for protecting network infrastructure based on Fortinet firewalls;
- Integration of an uninterruptible power supply system based on APC equipment.

## **Unitel LLC, Beeline trademark** 2021 - 2022

- Supply of thermal block systems for equipping base stations;
- Comprehensive supply of computer equipment and modernization of IT infrastructure.

## **UMS LLC** 2021

- Supply of uninterruptible power supplies to protect key telecommunications nodes.

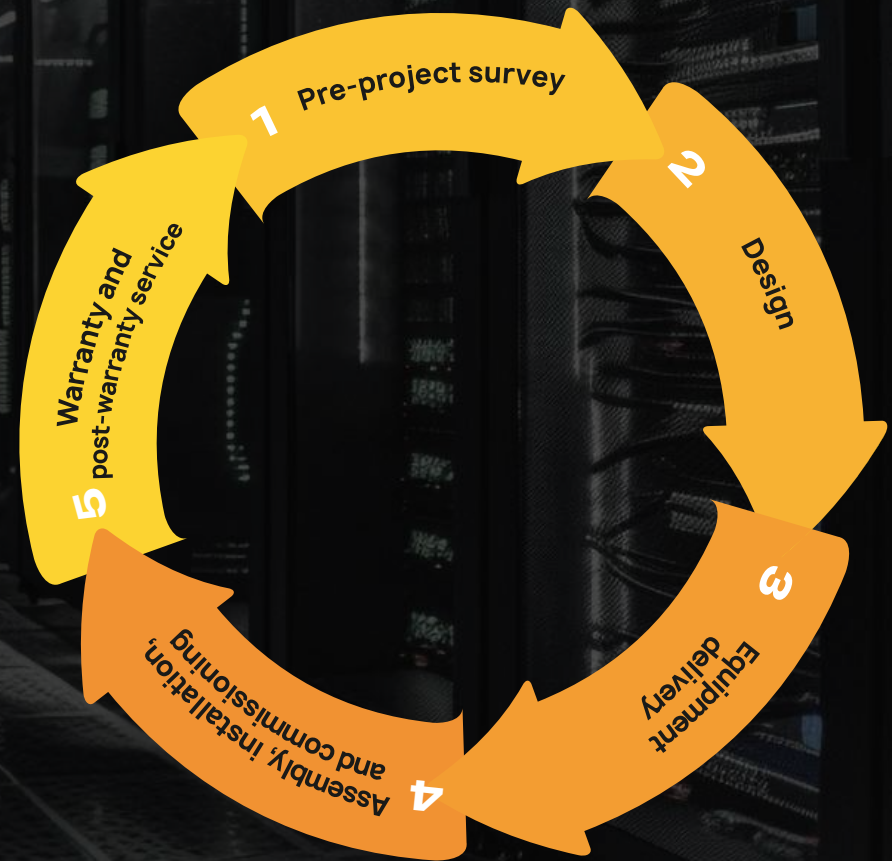

## **RWC LLC (Perfectum trademark)** 2025

- Supply of high-capacity rechargeable batteries for operator communication nodes.

# HOW WE WORK

We offer our customers a complete project lifecycle—from analysis of the current infrastructure to subsequent maintenance. This approach ensures quality, transparency, and efficiency at every stage of cooperation.

- 1. Pre-project survey** — analysis of the customer's existing infrastructure and business needs.
- 2. Design** — developing the optimal solution architecture, taking into account the client's goals and objectives.
- 3. Equipment delivery** — selection and supply of equipment and software from leading global manufacturers.
- 4. Assembly, installation, and commissioning** — installation, integration, and configuration of systems for operational readiness.
- 5. Warranty and post-warranty service** — technical support and assistance at all stages of the project life cycle.

# TEAM

**OUR MOST VALUABLE ASSET AND THE KEY TO OUR COMPANY'S SUCCESS IS OUR PEOPLE.**

Our team consists of certified engineers and project managers with many years of experience in implementing IT projects of any complexity.

We combine expertise, responsibility, and a commitment to results so that every client's task is solved efficiently and on time. We invest in employee development, training in new technologies, and confirmation of partner statuses – because the success of every project begins with a competent team.

All of our technical specialists have international professional certifications from leading IT manufacturers.
